SUMMARY

Motivated and detail-oriented web developer with hands-on experience building scalable and user-friendly web applications through personal projects. Proficient in HTML, CSS, JavaScript, Vue.js, and Express.js, with a strong grasp of full-stack development, responsive design, and version control using Git. Passionate about clean code, real-time interactivity, and continuous learning.

EXPERIENCE

Full-Stack Web Developer

Client Project – Gadget Ordering Platform (Client App + Admin Dashboard)

Oct 2025 – Jan 2026

- Built a full-stack gadget ordering system with separate client interface and admin dashboard
 - Developed REST APIs using Express.js with MySQL database architecture
 - Created role-based admin tools for managing users, inventory, and transactions
 - Implemented authentication, order lifecycle tracking, and payment integration via Pay stack
- Designed responsive UI using Vue.js for both
